Bert Green Fine Art is pleased to present our third show by Chicago-based artist **Morgan Sims**.

Morgan Sims' newest paintings are based on the shapes, surfaces, and characteristics of rocks and minerals. The artist is looking at the nature of imperfect, striated surfaces, and how these qualities are presented and perceived. Sims embraces intuitive mark making in the service of illusion, straddling a fine line between unplanned, spontaneous abstraction and deliberate, rational representation.

In the Project Room, **Morgan Sims** has installed a site-specific neon installation that look at the interaction of light, space, and color.

All gallery events are free and open to the public. Additional exhibition information, press releases and high resolution images may be found at the gallery website at <http://bgfa.us>.
